

I am against the expansion of the LPFM and that They take priority over regular FM service. I listen to a non-profit station on FM that is nationwide. (K-LOVE) radio. There is enough garbage on the radio, I am grateful that this is available to me and my community. This station is unique and provides a wonderful service to all people in need, even if only that moment provides a song, word of encouragement, or a prayer. Please do not mess with the success of this much needed ministry. Thank you.

p.s. I think deregulating the airwaves and allowing the merger/purchases/etc of radio and TV is a major mistake.
